"THEY ARE ALL FORDS"

THAT'S what a fellow said on the street last Saturday evening. He was mistaken. At that time there were twenty cars on the street. There were only nineteen Fords.

The farmers who own these cars had done a day's work and left their teams to rest at home while they drove to town to do their town weeks shopping. There was probably twice that number of cars in that evening.

Say each man of these had prepared and seeded three acres of land that day. At twenty bushels per acre twenty four hundred bushels @ \$2.00, \$4800.00. About five days saved means the price of a Ford car. Think it over. The men who come to town with teams lost a full day.

With the present cost of labor and horse feed, you cannot afford to be without a Ford.

WE ALWAYS HAVE THEM IN STOCK.

THE FIVE PASSENGER TOURING CAR \$330.00.

PROVINCIAL ELECTIONS

THE elections have been called for June 7th. This riding is a non-contestant in that the present member Capt. C. S. Pingle is one of the military members who will go back unopposed. If there had been an election this year the ladies would have cast their ballots along with the weaker sex. But that is a pleasure they will have to postpone. When we think of the cash that will flow into the coffers of some of our confederates during the next three weeks we are a wee bit jealous but the only newspaper in a small town usually emerges from a Political frigate rather muzzled and so we are strictly out of it this time.

Back Yard Gardens

Not a New Idea in the City of Calgary

To produce more foodstuffs and thus lessen the cost of living is the aim of western cities and towns this year, when thousands of back yards and many acres of waste space will be converted into truck gardens. Winnipeg has 55,000 vacant lots with an area of 5,840 acres, in addition to 20,000 back yards that are available for garden purposes, and it appears that Winnipeggers are determined to make good use of these lands. The city owns 109 parcels of land in the outlying districts which will be turned over to citizens who want to make gardens on them. Many city officials have declared that they will "work their own gardens to the limit" this spring to produce enough vegetables to last them through next winter. Everywhere throughout Canada there is a movement to convert back yards, vacant lots, and parks into productive vegetable gardens. It might be said that it is no new idea as far as Calgary is concerned, since this scheme has been carried out there in a practical way for a number of years.

Well-Known Farmer Gives His Evidence

SAYS DODD'S KIDNEY PILLS CURED HIM OF GRAVEL

Dr. William Wood of Haddington, Ont., is added to long list of cures by the Great Canadian Kidney Pills. Dr. William Wood, a well-known farmer living near Haddington, Ont., has been the victim of the most painful and dangerous form of kidney trouble, bladder trouble and gravel.

"Yes, I was troubled with gravel and bladder trouble," Mr. Wood said when asked about his cure. "But since I took four boxes of Dodd's Kidney Pills my troubles are gone. I also had heart flutterings and shortness of breath. There were flashes of lights and specks before my eyes and I was very nervous. All that trouble has gone, too, since I used Dodd's Kidney Pills."

Others in this neighborhood have used Dodd's Kidney Pills and found that they are the greatest of all cures for kidney troubles of any kind. Dodd's Kidney Pills are specialists. They cure sick kidneys and all they claim to cure. The reason they are given credit for curing rheumatism, lumbago, dropsy, diabetes and Bright's disease is that all of these diseases are cured by sick kidneys.

Germans Buy British War Loan

Some Germans have a strange way of showing their confidence in the victory that is to settle the war in their favor. A number of Germans, well-known to people in England, knowing that they could not purchase certificates in the recent war loan, set the wheels of negotiation going through friends in neutral lands who bought the loan for them. The fact has just come to the knowledge of the London Stock Exchange and now it is a question with the broker, who innocently arranged it whether he can find any way to cancel the deal.

German Ability in the War

One Is Not Tempted to Envy the Germans for Their Cleverness

There has been for some much discussion of German ability in this war. When one considers the vast amount of forthrighting given by the Germans to the war and the mobilization for a period of forty years of the best brains of the country toward the one end of military success and then surveys the results achieved one is not tempted to envy the Germans for their cleverness, but rather to think how much better the French, the Americans, or the English would have done the job if they had given their mind to it. The Germans in international politics remind us of the dull schoolboy who, having worked hard with immense industry and enormous sum in multiplication and division quite correctly to thirty places of decimals, manages at the end to produce a wildly incorrect result by rounding off at the third or three places out—H. Sidbotham in Atlantic Monthly.

China's Women Legislators

China is the only Oriental country where women are allowed to legislate. One of the provincial parliaments formed after the Republic was established at Canton—alleged to consist of 100 members—was elected by the votes of their own sex. Two of the successful candidates are school mistresses, and several others are the wives of wealthy merchants. Since taking their seats the legislators have devoted themselves almost entirely to their duties. They frequently take part in the debates, and display considerable aptitude for parliamentary business. It is believed that the example set by Canton will in course of time be followed by some of the other provincial assemblies in China, which at present consist exclusively of men. TOWN COUNCIL

The Council met Monday night in Secretary Starr's Office. Present were Taylor, Counsellor Thompson and McBurnell, the Secretary, R. H. Thornton and Yours Truly.

The appointment of a successor to Secretary Starr, resigned, took up the greater part of the session. Reeve Taylor and Counsellor Phono favored the appointment of R. H. Thornton, but Counsellor McBurnell held out in a vain effort to have Secretary Starr retain the position.

The appointment of Mr. Thornton was finally ratified and the Village Safe, Furniture, Books etc., will be moved over to his office. D. Brie will make an audit of the books to cost \$10.00.

A bylaw will shortly be framed by the Council under the provisions of the new Public Accommodation Act whereby the Council can license or refuse to license any place they see fit.

In 1913 there was a sum or sum of money, approximately \$20 left in the coffers of the Improvement Association after the sales were made. The Council will now use the money to do a little needed grading.

THE "QUALITY GOES CLEAR THROUGH"

A good many Gray-Dart owners swapped experiences at the recent Montreal Automobile show. Some of them had driven their cars upwards of fifteen thousand miles and all of them were most enthusiastic about the way in which their cars had stood up under all kinds of hard service. One up-keep was another point which was brought out very strongly.

One driver who visited the show was in Nova Scotia and had driven his Gray-Dart Touring Car some 15,000 miles without even as much as removing a spark plug. He had absolutely no up-keep repair expenses during the time he had owned his Gray-Dart and stated that he didn't know how to ride of his tool kit looked.

There were a number of others too who had driven their cars from ten thousand miles upward with repair expenses not averaging over a dollar, which is truly remarkable when one considers that nearly all of these cars were in use in the country, where the road conditions are far from the best.
